Matt,

Thank you for the authorization. We will collect the requested data during the sump sampling. We look forward to your feedback on the remainder of the Work Plan.

Regards,

Julie

Julie:

Thank you for providing the memorandum/work plan dated January 15, 2021. EPA and IDEM are providing our authorization to proceed with cleaning of well sumps provided the material in the sumps is fully removed and characterized at a minimum for the following:

- pH
- NAPL
- temperature
- oxidation/reduction potential
- volatiles per EPA Method 8260

We are reviewing the other proposed activities and expect to provide comments in early February.

Thank you,

Matt

Subject: Third Site DNAPL Cell remediation work plan

Matt,

Please find attached a work plan for the Third Site DNAPL area remediation program with a start date of Feb 1 as requested. Because of the short lead time, please confirm that we are authorized to proceed. If you have any questions or concerns, please let me know as soon as possible.

Regards,

Julie
